

What is Training Management?

Training Management is a powerful tool that allows gyms to create, manage, and sell agreements for things like personal training, group training, or even classes. Once you know the basics, you'll be able to customize services, packages, and agreements according to the needs of your club.

Create services and packages

Sell packages, manage renewals and billing

Schedule and manage paid events

Keep track of commissions for trainers and salespeople

Run Commission Report

Calculate PT sales and trainer commission for the selected period of time. Please note: As sales commission rates are based on your Pay Period set up in Pay Period Admin, sales commission data may be inconsistent if run for a custom date range that doesn't match your pay period dates.
